Workforce Disability Equality Standard (WDES)

Background

This is the second year that NHS organisations are required to report on WDES data. The standard was introduced to enable employees with disabilities to have equal access to career opportunities and receive fair treatment in the workplace.

WDES Data

Staff data was collected and submitted to NHS England in August 2020. The data period is 1st April 2019 to 31st March 2020 and is formulated into ten WDES Indicators.

An additional question is included for WDES (compared to WRES) around reasonable adjustments for staff members.

All NHS Trusts are required to collate and publish this information on their website.

Table One below shows ROH WDES Performance Data.

In Table One data for Indicators 4 – 8 is collated from the National Staff Survey (NSS) results which staff completed between 4th October and 30th November 2019.

The WDES action plan will be completed by the end of October 2020 and will form part of the work completed under the ROH Equality and Diversity agenda.

The WDES action plan and approach forms part of the work completed under the ROH Equality and Diversity agenda. The key actions achieved over the last twelve months have included:

- Carer awareness event
- Monthly Disability Forum meeting
- Listening sessions during Covid -19
- Information stand at Health and Wellbeing events
